Townsend Shoulder Sling

The Townsend Sling is designed for patients who require positional arm support and immobilization for upper extremity injuries and surgeries. The universal application makes it simple and convenient for both the medical provider and their patients.

Townsend Elite Shoulder Sling

The Elite Sling is our premium model that features an open cell foam lined with a breathable mesh material. Lighter and cooler, with additional elbow padding, the Elite Sling provides superior protection and patient comfort. Quick release buckles make this model even easier for patients to put on, adjust and take off.
